July 14<sup>th</sup> 2009

Dear Parents/Guardians,

### **Re: Lockers**

We have reviewed the way in which we provide lockers to students in order to provide students with safe storage and eliminate the financial burden on the school of having to clean, maintain and repair lockers.

We also needed to consider the structure of our new school day as students will not have access to lockers in form rooms at the beginning of the day but will be going straight to their first lesson.

We have decided to work in conjunction with a facilities company called ILS which offers a locker rental service using powder coated steel lockers. Every summer ILS will carry out a full cleaning and maintenance service and will repair any damaged lockers within 48 hours.

Parents can book a locker by logging onto the ILS website on [www.ilsschools.co.uk](http://www.ilsschools.co.uk). Payment for the lockers is **£20** per locker for one year, or **£80** per locker for 5 years. Subject to availability, parents can choose the site of the locker and whether to have a top, middle or bottom locker.

Once payment is received and banked, a key will be dispatched to you in time for the start of the new term. Replacement keys can be ordered in advance or when required from ILS but not from the school.

ILS recommends booking a locker as soon as possible and booking will be available from Saturday 18 July 2009.

Regards,

*Kate Sanders*
